# BOX BEAM TERMINAL SUPPORT BRACKET

## FPP03

SHEET NO.

REF. NO.

1 of 2

### **SPECIFICATIONS**

The box-beam terminal support bracket shall be manufactured from AASHTO M270M (ASTM A709M) Grade 250 steel L127x89x9.5 sections as defined in AASHTO M160M (ASTM A6/A6M). The brackets shall be zinc-coated according to AASHTO M111 (ASTM A123) except when corrosion resistant steel is requested, in which case the brackets shall be manufactured from AASHTO M270M (ASTM A709M) Grade 50W plate and shall not be painted or zinc-coated. No punching, drilling or cutting is permitted on the component after application of the zinc-coating.

Dimensional tolerances not shown or implied are intended to be those consistent with the proper functioning of the part, including its appearance and accepted manufacturing practices.

### **INTENDED USE**

FPP03 Support Brackets are used in Box-Beam Terminal systems.
