

SPECIFICATIONS

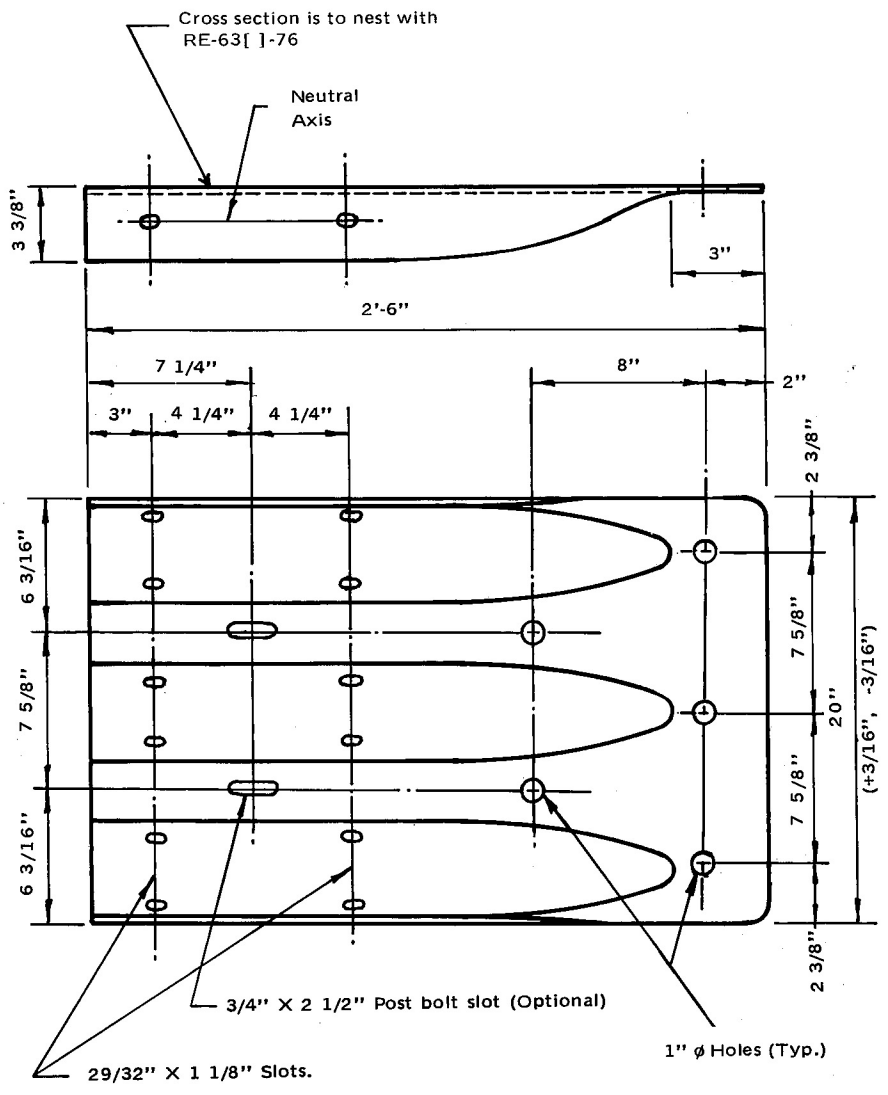

Terminal connector shall conform to the current requirements of A.A.S.H.T.O. M180, Class B, Type 2.*

Dimensional tolerances not shown or implied are intended to be those consistent with the proper functioning of the part, including its appearance, and accepted manufacturing practices.

INTENDED USE

This terminal connector is used in some of the rail element terminal configurations employed with the standard Thrie Beam barrier designs G9, MB9, and MB9B.

* If another class or type is required this should be indicated by a modified part number. For example, if corrosion resistant steel is required show thusly:
RE-67[Class B, Type 4] -76.
