

SPECIFICATIONS

Corrugated sheet steel beams shall conform to the current requirements of A.A.S.H.T.O. M180, Class A, Type 2.*

Dimensional tolerances not shown or implied are intended to be those consistent with the proper functioning of the part, including its appearance, and accepted manufacturing practices.

INTENDED USE

This corrugated sheet steel beam is used as a rail element in standard barrier designs G9, MB9, and MB9B.

Note: Typical designations are RE-63 [2@6'-3"=12'-6"]-76 and RE-63 [4@6'-3"=25'-0"]-76.

* If another class or type is required this should be indicated by a modified part number. For example, if corrosion resistant steel is required show thusly:
RE-63 [2@6'-3"=12'-6" Class A, Type 4] -76.
