

Safe, Durable And Functional

With many thousands installed, for more than a decade we have maintained a flawless safety record. While having met national requirements for safety, nothing speaks as loud as the silence of more than a decade of no known fatalities, injuries or law suits, only requests for replacement parts. Our kind of silence.

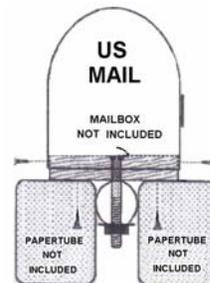

Designed for safety using state of the art materials. With an exterior coating that far exceeds the old long-lasting galvanized finish. You may use automotive paints as well on these and better match your décor.

Icy roads, snow storms, fog, rain or just a moment of inattentiveness can lead to injury or even death. Whether it is your loved ones, neighbors or strangers driving by your home – help protect them and your liability by having the safest mailbox support available.

Created, Nurtured and Raised as if one of the children. Isn't our baby *a beauty*?

On top of being beautiful, it can also handle up to two paper tubes. withstand the heat of the sun to the brute force of the snowplow, and be readjusted at your pleasure with ease.

REASONS WHY !

Light Weight

(A true balance of materials to needs.)

Durable

(Simple idea, lightweight, yet strong, and durable.)

Break-away

(A national safety requirement.)

Crashworthy

(Same as break-away. Both imply tested, proven safety.)

Cantilever

(Set the upright further from the roadway, improves impact reduction.)

Re-adjustable

(You can easily readjust the height for you or the carrier.)

Weather Resistant

(Metal design - whether desert SUN and arctic cold.)

NCHRP 350 Accepted
